6 Home Visiting Priorities

To strengthen the effectiveness and accountability of the state’s home visiting system:

• Improve prenatal, maternal, infant, and child health outcomes;
• Reduce entry into the child welfare system;
• Improve positive parenting and relationships skills;
• Improve parental self-sufficiency;
• Improve children’s readiness to succeed in school; and
• Improve children’s social-emotional, cognitive, language, and physical development.

January 2016 Oklahoma Home Visiting Outcomes Measurement Plan
