About OPSR

History

In 2003, the Oklahoma legislature signed House Bill 1094, which created our organization, the Oklahoma Partnership for School Readiness (OPSR). This legislation recognized more state level action is required to successfully support families and children from birth to five-years-old. At this state level, OPSR engages and informs policy makers and the public on how to improve children's health and development.

Together, we lead public and private partnerships, so that children arrive at school with the knowledge, skills and physical and emotional health to achieve success. We also utilize data, research and best practices that engage parents, nonprofits, community partners and business leaders to inform recommendations to the Governor and legislature.

Mission

Our mission is to lead Oklahoma in coordinating an early childhood system that strengthens families and ensures all children are ready for school.

Vision

Our vision is that all Oklahoma children are safe, healthy, eager to learn and ready to succeed by the time they enter school.

Thank you to our partners!
